

For healthcare organizations to maintain financial stability, it is imperative that they precisely understand amounts due them, the costs, and the utilization by payer.

Contract Manager

For over 25 years, **HCC Contract Manager** has been the industry-leading system for all-payer reimbursement management. HCC clients collect millions of dollars of otherwise underpaid reimbursements and improve their contract performance by negotiating better contracts. With integrated **HCC Cost Accounting Manager**, **Best Practice Manager**, and **Information Manager** systems, you are in control of revenues, costs, and utilization.

Available as software or as a service...

HCC Contract Manager applies the complex terms of managed care contracts and other complex payer arrangements to specific patient encounter data. Accurate, authoritative expected reimbursement and contractual allowances can be automatically posted to your patient accounting system...along with an explanation of the specific calculation detail. This puts collection information at your staff's fingertips. As an integrated part of **HCC's** industry-leading decision support system, **HCC Contract Manager** is more than a transaction processing system, it provides unsurpassed analytical and reporting capabilities.

- ◆ User-defined, contract specific service definitions accurately provide accurate calculations of expected reimbursement
- ◆ Supports complex contract terms, including stoplosses, pass-throughs, bundled rates, fee schedules, ASG rates, APC's and CMG's
- ◆ Automated recalculation of expected reimbursement based on contract changes or updated patient data
- ◆ Accurate automated contractual allowance posting that handles reversals and manual adjustments
- ◆ 'What-if' modeling using all levels of patient detail

Focused Solutions for Clear Results

Hospital Cost Consultants LLC is a leading provider of cost and reimbursement management software and services. With over 25 years of experience in the healthcare industry, HCC offers a full range of implementation, training, and consulting services to complement its decision support applications-- Contract Manager, Cost Accounting Manager, Best Practice Manager, and Information Manager. All are available as stand-alone products or as part of an integrated decision support system that utilizes a single patient encounter database for consistent, enterprise-wide reporting.

Superior Functionality

HCC Contract Manager's sophisticated, simple-to-implement rules engine accommodates all types of contractual terms, including inpatient (day of procedure, level of care, case, bundled, DRG, and CMG rates); outpatient (fee schedules, ASG, APG, APC rates); thresholds (day or cost thresholds, multiple stoplosses); and exceptions (pass-throughs, carve-outs, and charge item specific exceptions). Service rules and rates are date-specific with all history retained.

Ease-of-use Features

- ◆ Fastload fee schedules, APC mappings, ASG mappings and other datasets;
- ◆ Copy all, or selected sections, of contract rates and terms to other contracts and effective dates;
- ◆ Move contracts and patient data from production database to a fully functioning test environment (and back) for 'what-if' analyses.

Comprehensive Reporting

A wide range of standard reports is available, including:

- ◆ Payment variances between amounts paid and amounts owed;
- ◆ Utilization and patient mix, including costs;
- ◆ Contract performance analysis, summary and detail;
- ◆ Daily underpays and overpays with narrative description of the expected payment rationale;
- ◆ Aging reports and delinquent accounts.

An SQL-based "ad hoc" report tool is also provided. All reports can be scheduled to be refreshed automatically.

Use with HCC Information Manager for 'point-and-click' queries and reporting, OLAP analyses, and enterprise-wide distribution/publication tools.
